

5217 : Tip for MAPP® Pro Torch

Description

Broad range of interchangeable tips for the MAPP® Pro torch.

Extra-thin needle-point burner: Soft welding, precise and stable flame.

Extra wide Turbojet® burner: Strong welding, cyclone effect for even and fast heating.

Hot air burner head: Stripping and shrinking work, powerful hot air flow and resists to wind.

Soft flame burner head: Shrinking and heating work (soft welding Ø 22 mm), soft and powerful wind-proof flame.
